Concept Capital Group is officially an Introducer Appointed Representative for Pegasus Finance

Concept Capital Group is proud to announce that we are now an Introducer Appointed Representative for Pegasus Finance, one of the most trusted financial experts in the UK and winner of the 2022 Feefo Gold Trusted Service Award.

Through this strategic collaboration, we hope that an increased number of individuals can purchase our homes which offer rental income yields of up to 11.1%.

Pegasus Finance, an FCA registered and regulated financial broker, is known for connecting individuals to the best type of loans for a range of purposes.

As a company that offers ownership of a fully managed prefabricated home for as little as **£40,499**, we believe Pegasus will act as a bridge between us and potential clients looking to obtain financing in order to purchase a home.

After analysing Pegasus thoroughly and understanding its values as a company, we are incredibly thrilled to represent them to our prospective clients who are seeking financial loans.

Regulatory Checks

Concept Capital Group had to undergo several due diligence checks during our onboarding as an Introducer Appointed Representative for Pegasus, an FCA registered and regulated firm.

These checks included the provision of Business and personal details from the Director of Concept Capital Group and key members of senior management, an investigation of personal circumstances, a detailed analysis of filed records, and a fit-for-purpose check.

Following that process, the FCA approved our application and confirmed that we, Concept Capital Group, are suitable to be an Introducer Appointed Representative.

About Concept Capital Group

Concept Capital Group is a buy to let homes provider that offers high yielding opportunities. The company is socially responsible and primarily aims to generate affordable housing solutions to help resolve the UK housing crisis.

It is important to note that whilst the homes sold are fully insured and built to a British Standards Institution (BS3632), the purchase of a home from Concept Capital Group is not regulated by the FCA. This is because the regulator monitors the operation (or management) and promotion of property investment clubs if, in substance, they amount to collective investment schemes or AIFs.

Concept Capital group does not operate a collective investment scheme (CIS), Alternative investment fund (AIF) or property investment club. All units are independent of one another and there is no significant shared element to the physical property, customers are purchasing an entire home with individual ownership certificates and not a share of the company or a bond of any kind
